

Greetings, my name is Phuong Hudson and I'm honored to serve on the PTO as Treasurer. I have three daughters who love LdV, their teachers and staff. They are Emma (4th), Kara (3rd) and Sophia (KG). LdV fulfills our childrens' educational needs and I fully support the effort to nurture children to become ethical and socially responsible citizens.

My goals as a part of the PTO are to strengthen our LdV community through social gatherings and events which are fun for parents and students. I will also promote opportunities for parental/volunteer involvement through marketing and communications. Furthermore, I will uphold my fiduciary duties as Treasurer and act upon LDV's best interest. My past contributions to the school are serving as Harvest Fest co-chair, volunteering at events, and helping out in the classroom.

My passion lies in working with people, interacting with children and helping others. I serve on the Children's Council at First United Methodist Church (FUMC) in downtown Green Bay to develop and execute children's programs and activities. I also help teach Sunday School and Vacation Bible School there.

Part of my professional experience includes working in the telecommunications space on marketing and product management in Chicago. I was fortunate to own and run a multi-site apparel retail operation throughout the greater Chicagoland area. As a small business owner, my varied responsibilities included financial management, business development, vendor relations, customer service, supply chain management and employee training. Additionally I was a business & technology consultant for a Denver firm which helped companies streamline their processes and implement IT solutions. Also, I worked in the IT department of a major residential home builder in Colorado to support internal systems and applications.

I would like to highlight my academic background to reach out to alums. I earned my MBA in International Business & Finance at the University of Denver, Daniels College of Business. I obtained my Bachelor of Science in Business Administration & Marketing at the University of Illinois at Champaign-Urbana.

My husband Paul and I grew up in Chicago, Illinois and have lived in Denver, Colorado and San Diego, California. We are grateful to call Green Bay our home and Leonardo da Vinci our school!
